**FOR IMMEDIATE RELEASE**

### NEW STAFF AT HART CROWSER

Seattle, WA (May 2011). Four new staff members have joined Hart Crowser's Seattle office. **Chris Poulsen** is an associate environmental engineer with seventeen years of experience in geothermal system design, stormwater management, and environmental investigation and remediation. He will support Hart Crowser's on-call Environmental contract with the Washington State Department of Ecology. **Rolf Hyllseth, Carlos Valdez, and Dev Mitra** are geotechnical engineers. Hyllseth is an associate with 22 years of experience, including deep excavation shoring for high-rise buildings. He will be working on the Chihuly Glass Museum at the Seattle Center, a former mine site environmental remediation project, and a new aviation hangar. Valdez and Mitra will receive their Master of Science degrees from the University of Washington in June. They are supporting the SR 99 Bored Tunnel Alternative project in Seattle.

Hart Crowser is a 90-person, employee-owned environmental and engineering consulting firm headquartered in Seattle, with offices in Edmonds, Washington, and Portland, Oregon. The firm specializes in environmental and geotechnical engineering, natural resources, and environmental remediation technologies. Corporate offices are located at 1700 Westlake Avenue North, Suite 200, Seattle, Washington 98109; telephone (206) 324-9530 and fax (206) 328-5581. Visit the firm's website at [www.hartcrowser.com](http://www.hartcrowser.com) for more information.
